

Support Team Hyde Park candidates

We have resided in Hyde Park since 2010. We like to say Hyde Park chose us! It offered respite from the hustle and bustle of New York City, beautiful scenery and an easy-going community. But we also noticed, after the first few months, a distinct lack of inertia and no clear path for the future of the town.

Now, after three terms under the direction of Supervisor Aileen Rohr, we see concrete change. This is the result of steady leadership, transparent planning and strategic guidance. We commend Aileen Rohr and the town board of Hyde Park for their dialog and action in driving progress for Hyde Park.

Some accomplishments worth noting: newly balanced books; strategic planning and development; significant funding via grants; an enlightened sewerage plan for the commercial district; and town enhancements like sidewalks and bike paths. Too often, local governments plan for the short haul while in office. This team clearly has the long play in mind and we whole-heartedly support Ms. Rohr and Team Hyde Park for another term.
