

Support current town leaders in Hyde Park

Over these past several years I have appreciated the responsive and inclusive leadership provided by our current Hyde Park Town Board. Supervisor Aileen Rohr runs an effective administration, and together with Ward 1 Councilwoman Emily Svenson, her board has negotiated and secured grants to benefit the town as a whole, most notably funding for a long-needed business center sewer.

Long-derelict parcels across from the Staatsburg Library and at the entrance to Greentree Park have also been cleaned up. Hyde Park's Town Board demonstrates what good government looks like. This November I urge all Hyde Park residents please to vote to re-elect our current town leaders.
